How can we protect loved ones in a nursing home or assisted living facility? The government recently issued new guideline in an effort to stop the spread of the virus. But it's also worth it to check in with the facility & see what they're doing to keep everyone safe. #covid19

Should the elderly avoid travel? They should avoid public transportation during crowded times like rush hour. They may also want to think twice about long distance trips. #covid19

Is my seemingly healthy child, from a closed school, a risk to my elderly parents? It's hard to say. They could potentially be carrying #coronavirus and not be sick, but we do not have a way of knowing at this time. #covid19

1 3 8

Dr. Mehmet Oz @DrOz · 1h
Right now it doesn't mean you can't take the kids to see grandma, but be sure to practice good hygiene. If you live in an area where you know there is community spread, you may want to consider more video chats with people at highest risk. #covid19

   Replying to @DrOz

   Well, Dr Oz the problem is that if I go to my doctors office and tell him that I have overwhelming fatigue, the first thing he will offer is an antidepressant. Guaranteed. Change doctors you say? Not that easy in Canada. We have thousands of people with no family doctor

Harris, this may sound trite but I don't really like hearing that "The risk of Coronavirus is LOW." Fact is, if YOU HAVE THE VIRUS, the risk is 100%. Best to term this as SERIOUS but likely to be manageable. Stop w/ the authoritative estimates when we really DON'T KNOW!

People are actually sick of the media. The government is trying to do their, it's also upto local medical agencies to be proactive about it as well. You also have to have common sense, if it spreads it spreads. Can you really stop it. Can you, stop the flu? Or the cold? No

What about pregnant women? Would you let your daughter fly to another state if she was 6 months pregnant?

1 2

Claire @C[illegible]re_090582 · 3h

In Italy a pregnant mother with Covid-19 gave life her baby and her baby was not affected. They say there is no vertical transmission. Personally, I wouldn't permit her to fly! She would be on the plane with other people and no one knows if they may be affected.

Here it is. It's more for the people who are already infected and if you are to use one it is rendered useless if you touch everything and then touch your mask. Oh and if you buy them, you are taking them away from the medical personnel who truly need them. Am I right?

Replying to @DrOz

It's not just about being older; it's that plus the overall status of one's health. Consider Biden and Bernie and others older but as healthy as those who are younger. We need to break the stereotype of advanced age meaning being sickly/vulnerable. Some cultures ignore age.

If we have just developed testing, how do we know the CoronaVirus hasn't been around for years and we are just now able to identify it? Maybe always chalked it up as viral respiratory since the flu test wasn't positive. Maybe that doesn't make sense, but just curious.

I had a good conversation with @nycmayor at @fox5ny this morning. The city's approach to #cov d 19 – declaring a state of emergency and taking a clear-eyed approach to keeping basic services open – is part of smart prevention. Hopefully it sets an example for cities worldwide.

Keep your family safe by knowing the facts about #COVID19.

Information and resources for students and their families around the #coronavirus are available on our website, including support for parents and printable posters to practice good hygiene:
healthcorps.org/coronavirus/

WHAT ARE THE SYMPTOMS OF COVID-19?

Similar to many viral respiratory illnesses, the symptoms of the virus mimic the common cold and include mild to severe respiratory illness with fever, cough, and difficulty breathing. Symptoms may appear between two to 14 days after exposure to the virus. Also, be mindful that we are in flu season and pollen counts are high, so there are many other causes for upper respiratory symptoms that are much more common than COVID-19.
A current flu vaccine is recommended to avoid confusing seasonal flu with COVID-19.

HOW TO PROTECT YOURSELF FROM GETTING COVID-19

There is currently no vaccine to prevent COVID-19. The best way to prevent the spread of germs is proper hand hygiene, cough etiquette, and disinfecting frequently touched objects and surfaces. Below are some other tips

Should we attend social gatherings or go to church?

It's a question I get a lot these days. I answered this and more on @DaphneOz's Instagram Stories. Head over there to check out the full Q&A. #COVID—19

Social distancing doesn't have to mean social disengagement! See below for tips on coping with isolation and stress as we deal with #Coronavirus. And remember, being healthy is still as important as ever. Eat right, exercise, and take your meds! https://www.cdc.gov/coronavirus/2019-ncov/prepare/managing-stress-anxiety.html …

I have a Dr's appt this afternoon but I'm not sure I should go. I need a script for medical devices (ostomy supplies, I'm running very low) my mother in law has been in rehab for over 2 months now and is ready to come home. Worried for her if I go.

Could anti-inflammatory painkillers like ibuprofen make #covid19 worse? Theoretically, they would make the lungs more susceptible to the novel coronavirus infection; however, global health experts aren't convinced, citing a lack of evidence. The consensus: we need more research.

I practice social distancing and my employer allows me to work from home. My concern is not having enough food and home supplies. EVERY time I go to the store there's nothing left. Starting to feel panicked.

Hey, folks. Two weeks after our first symptoms and we feel better. Sheltering in place works like this. You don't give it to anyone. You don't get it from anyone. Common sense, no? Going to take awhile, but if we take care of each other, help where we can, and give up some comforts. this, too, shall pass. We can figure this out. Hanx

Details about the French study... In order to avoid cardiac problems, they did an ECG before treatment. Also did a low-dose CT scan to assess lung damage. Plaquenil 200mg x3 day (10 days) + Azithromycine 250mg for 5 days, twice the 1st day, then once for the next 4 days

People are understandably searching for new ways to protect themselves from #covid19 but the truth is your mother was right.

The most effective ways to remain safe are to stay clean, keep your hands to yourself, and steer clear of strangers.

Liberty @Grayson_berty · 15h

Replying to [illegible]

Absolutely! Right After! And take a shower too!

The longer one prolongs washing, the more surfaces they can unknowingly touch. Washing everything quickly requires less cleaning elsewhere. Hair absorbs germs and viruses to be touched later

Most of this stuff falls on deaf ears.

DrOz Doctorsuevarma

Hoarding affecting availability of potential #Coronavirus medications- There are patients who have #lupus or #rheumatoidarthritis who actually need access to these medications. Large Doctors and pharmacies, you need to be more responsible!

0 replies 0 Retweets 0 Likes

Replying to @DrOz

The Chinese government is responsible for this pandemic because they didn't change the proven dangerous conditions of their wet markets.They have EARNED THE NAME Wuhan Virus,like no other.The Black Death originated in the same (Hubei)province.They ought not get special treatment!

Hydroxychloroquine, coupled with a drug called "Z-Pak," could do a lot to make coronavirus patients "less infectious," says @DrOz.

We will require larger, randomized trials "to clarify which patients, if any, will benefit" from this treatment, however.

When doctors from around the world were surveyed, hydroxychloroquine was chosen as the most effective therapy.

I spoke with Dr. Didier Raoult this morning. We'll Skype next week to review the results from his first 1K patients on hydroxychloroquine.

I know this sounds overly simple BUT could the childhood vaccines for pertussis and diphtheria help combat or kill the Covid 19 virus? By in large, children seem to be immune from Covid 19.Could this be a result of DTP inoculations for toddlers and booster shots for older kids?

COVID-19 Update Saturday 4/4/20

Here's the latest missive on the [ ] crisis from Dr Craig Smith

04/04/20

Dear Colleagues,

This morning I extended my rounds to include several ICUs. This included the CTICU, packed full and gamely holding on as our only non-COVID+ unit. I visited one of the new "pop-up" units on a repurposed step-down floor I finished in the ICU pods created from reconfigured operating rooms on the 4th floor. These pods extend ventilator capacity by using the OR anesthesia machines, and are where the split-ventilator trials are being conducted. From the sterile core (now a nursing station) I looked through a window into "my" room (OR 22), where I've done thousands of operations over the years. That was then, this is now. The new now, in "my" room, consists of several critically ill patients on ventilators. Their bedside intensive care was being provided by a redeployed cardiac anesthesiologist and a redeployed cardiac surgeon, both close colleagues of mine. The cardiac surgeon was the first of my subspecialty partners to be felled by COVID-19. He recovered well and returned to the front lines last week. Another of our partners is recovering, and will return next week.

The scene in OR 22 captures many achingly familiar and universal features of this pandemic—our comfortable pavement and reassuring routines ripped up overnight and replaced by precarious hand-to-hand combat with a virus, accompanied by vanishing productivity, extinction of familiar roles, personal and professional dislocation, illness, and loss of life. OR 22 also illustrates a counterweight to all that gloom. Adaptability, resolve, and self-sacrifice is how everyone is fighting back. Soon I hope to say it's how we've turned the tide. Maybe next week? 🤞 I can't wait to mothball that emoji.

Craig R. Smith, MD
Chair, Department of Surgery
Surgeon-in-Chief, NYP/CUIMC

COVID-19 Update: Sunday, 4/5/20

Closing out the weekend with the latest on #COVID19 from Dr. Craig Smith: columbiasurgery.org/news/covid-19- …

04/05/20

Dear Colleagues,

We yearn to find our invincible spring, but we are hurtling into weeks predicted to be our worst. Our Gettysburg, our Somme, our Iwo Jima, our Khe Sanh, our Fallujah. Epidemiologically speaking, we need to reach the point at which deaths and recoveries exceed new cases—the bent-to-broken curve. The steadily positive slope we've watched for a month is grinding and relentless. Scanning the daily statistics for the NYP system I can squint,

Dr. Danie. Wallace - the rheumatologist who treated Selena Gomez - has written to the FDA with his experiences prescribing hydroxychloroquine. Dr. Wallace joins me Tuesday to discuss why lupus patients may hold the key to whether the medication could keep people safe #COVID19

> Hydroxychloroquine (HCQ, Plaquenil) is a very safe drug. It has been given to tens of millions individuals in the world since its approval in 1955 (65 years) and as monotherapy has not been associated with any deaths in the recommended dose. In 42 years of practice, no patient of mine has ever been hospitalized for a HCQ complication.

Why are more men dying from #covid19 than women?

Dr. Ian Lipkin joins me today to discuss the hormonal differences between men and women – and whether or not this could be contributing to the gender disparity.

Salgının yayılmasını önlemek için mümkün olduğu kadar evde kalmalıyız. Zor olduğunu biliyorum ama bakış açınızı değiştirebilirsiniz ✨ Tüm gelişmeleri ve yeni verileri @DrOz ve Ekibi YouTube kanalımızda paylaşıyoruz. Takip edin youtu.be/PMJzlzEkoNo

COVID-19 SALGINI SÜRESİNCE BAKIŞ AÇINIZI DEĞİŞTİRİN

Böyle düşünmek yerine:	Bu şekilde düşünün:
Evde tıkılıp kaldım.	Evimde ailemle birlikte vakit geçiriyorum.
Yiyeceklerim bitecek aç kalacağım.	Şimdilik ihtiyacım olan her şeye sahibim ve gıdanın sürekli kontrolünü yapıyorum.
Hastalanacağım diye korkuyorum.	Karantinaya uymama rağmen hastalanırsam için kontrolümdeki her şeyi yapacağım.
Bu durum hiç bitmeyecek.	Bu da geçecek ve bu süre kadar sabırlı olduğum her şey için çalışacağım.
Her yer kapanacak. İhtiyacım olan şeyleri nasıl alacağım?	Market, hastane ve eczane gibi önemli yerler açık kalacak.
Tüm bahar planlarım mahvoldu.	Bu sakin kontrolümdeki alanlarla sınırlıdır. İçinde yaşadığım şu anı yaşayacağım.

Hydroxychloroquine, coupled with a drug called "Z-Pak," could do a lot to make coronavirus patients "less infectious," says @DrOz.

We will require larger, randomized trials "to clarify which patients, if any, will benefit" from this treatment, however.

Replying to @Dr
Although it is important to protect ourselves and our furry friends. Please be careful promoting this idea. People will start to abandon or worse, kill their pets. We saw people throwing pets off balconies in other countries with it was thought animals spread the virus.

Brian Tyler Cohen @briantylercohen · 2h

Replying to @DrOz

Your exact words were, "the opening of schools may only cost us 2 to 3% in terms of total mortality. Any life is a life lost, but to get every child back into a school... that might be a tradeoff some folks would consider."

Pretty sure we weren't "confused."

"ONLY 2 3% mortality"? That s 100s of 1000s of deaths! And u want to risk this to get kids back into schools. Well, who do u think will be a big part of that 2 3% f there s not the type of #ContactTracing infrastructure that we're still miles away from? That s right: teachers!

Only 2-3% of kids will die, so you think we should open schools? Sure, let s just toss them into a sacrificial volcano, along with all the adults who work at schools and drive buses and parent those children. It seems you need refresher classes in both epidemiology & compassion.

Your exact words were, "the opening of schools may only cost us 2 to 3% in terms of total mortality. Any life is a life lost, but to get every child back into a school... that might be a tradeoff some folks would consider."

Pretty sure we weren't "confused."

Accountist @AccountistLisa

So @DrOz says "only" 2.3% mortality, the cost of sending our kids back to school, as a beginning to reopening, is an "appetizing opportunity" They're callously discussing other people's deaths

Your exact words were, "the opening of schools may only cost us 2 to 3% in terms of total mortality. Any life is a life lost, but to get every child back into a school... that might be a tradeoff some folks would consider."

Pretty sure we weren't "confused."

Specialism Heart surgery

Research Heart valve repair

Awards Primetime Emmy Award (2008)

Mehmet Cengiz Oz (/ˈɒz/; Turkish: Mehmet Cengiz Öz; born June 11, 1960), known professionally as Mehmet Oz, is a Turkish-American media personality, author, and former cardiothoracic surgeon. He is the host of The Dr. Oz Show, a syndicated talk show that premiered in September 2009. He is also a professor of surgery at Columbia University.

Oz graduated from Harvard College and received his medical degree from the University of Pittsburgh School of Medicine. He received his MBA from the Wharton School of the University of Pennsylvania. He was a cardiothoracic surgeon at New York-Presbyterian Hospital/Columbia University Medical Center for 15 years, and is a professor of surgery at Columbia University. He has written numerous books, including the New York Times best-seller YOU: The Owner's Manual.

Oz has been criticized by physicians and medical professionals for his frequent promotion of unproven medical claims, which have led to him being referred to as a "snake oil salesman" by U.S. Senator Claire McCaskill and a "quack" by the British Medical Journal. In 2014, a group of 10 doctors wrote a letter to Columbia University requesting that Oz be stripped of his professorship for promoting "quackery and pseudoscience". In June 2014, Oz testified before the Senate Subcommittee on Consumer Protection, Product Safety, and Insurance, where Senator McCaskill criticized him for promoting "miracle fixes that don't exist". Oz responded that he was "pro-science, pro-evidence".

Early life and education

Oz was born in Cleveland, Ohio, to Turkish immigrants Suna and Mustafa Oz. His father was a cardiothoracic surgeon who founded the Cleveland Clinic Foundation's Department of Cardiothoracic Surgery. Oz's mother was a homemaker who also worked as a real estate agent. Oz has a younger brother, Selim, who is a physician and a younger sister, Nilgun, who is a lawyer. Oz's parents are Muslim, and Oz was raised in the Muslim faith.

Oz graduated from Harvard College in 1982 with a Bachelor of Arts degree in Religion and Philosophy. He graduated from the University of Pittsburgh School of Medicine in 1986 with a Doctor of Medicine degree. He received his Master of Business Administration degree from the Wharton School of the University of Pennsylvania in 1990.

Career

Oz is a professor of surgery at Columbia University. He was a cardiothoracic surgeon at New York-Presbyterian Hospital/Columbia University Medical Center for 15 years. He has written numerous books, including the New York Times best-seller YOU: The Owner's Manual.

Oz has been criticized by physicians and medical professionals for his frequent promotion of unproven medical claims, which have led to him being referred to as a "snake oil salesman" by U.S. Senator Claire McCaskill and a "quack" by the British Medical Journal. In 2014, a group of 10 doctors wrote a letter to Columbia University requesting that Oz be stripped of his professorship for promoting "quackery and pseudoscience". In June 2014, Oz testified before the Senate Subcommittee on Consumer Protection, Product Safety, and Insurance, where Senator McCaskill criticized him for promoting "miracle fixes that don't exist". Oz responded that he was "pro-science, pro-evidence".

Controversies

Oz has been criticized by physicians and medical professionals for his frequent promotion of unproven medical claims, which have led to him being referred to as a "snake oil salesman" by U.S. Senator Claire McCaskill and a "quack" by the British Medical Journal. In 2014, a group of 10 doctors wrote a letter to Columbia University requesting that Oz be stripped of his professorship for promoting "quackery and pseudoscience". In June 2014, Oz testified before the Senate Subcommittee on Consumer Protection, Product Safety, and Insurance, where Senator McCaskill criticized him for promoting "miracle fixes that don't exist". Oz responded that he was "pro-science, pro-evidence".

Personal life

Oz is married to Lisa Oz. They have four daughters. They live in Cliffside Park, New Jersey.

Awards and honors

Oz has been criticized by physicians and medical professionals for his frequent promotion of unproven medical claims, which have led to him being referred to as a "snake oil salesman" by U.S. Senator Claire McCaskill and a "quack" by the British Medical Journal. In 2014, a group of 10 doctors wrote a letter to Columbia University requesting that Oz be stripped of his professorship for promoting "quackery and pseudoscience". In June 2014, Oz testified before the Senate Subcommittee on Consumer Protection, Product Safety, and Insurance, where Senator McCaskill criticized him for promoting "miracle fixes that don't exist". Oz responded that he was "pro-science, pro-evidence".

Bibliography

Oz has been criticized by physicians and medical professionals for his frequent promotion of unproven medical claims, which have led to him being referred to as a "snake oil salesman" by U.S. Senator Claire McCaskill and a "quack" by the British Medical Journal. In 2014, a group of 10 doctors wrote a letter to Columbia University requesting that Oz be stripped of his professorship for promoting "quackery and pseudoscience". In June 2014, Oz testified before the Senate Subcommittee on Consumer Protection, Product Safety, and Insurance, where Senator McCaskill criticized him for promoting "miracle fixes that don't exist". Oz responded that he was "pro-science, pro-evidence".

Your exact words were, "the opening of schools may only cost us 2 to 3% in terms of total mortality. Any life is a life lost, but to get every child back into a school... that might be a tradeoff some folks would consider."

Pretty sure we weren't "confused."

Just throw away any outside packaging, & wash your hands and any areas the packaging may have come in contact with. The virus is not transmitted thru food although if you have Covid-19 stay the heck out of the Kitchen. Stay back at least 6ft @ min 1.3ft even better

Idinagdag ni Trinity,

Trinity @TrinityResists

There's ~73.7 million younger than 18 in the US — 22.6% of the total population. Dr. Oz just said 1.5 to 2.2 children in this country should die to reopen schools. CDC's BEST case scenario is 240,000 deaths. 1,500,000 to 2,200,000 children — Dead Hippocratic oath, "doctor" Oz?

Dr. Mehmet Oz **Beripikadong account** @DrOz

We realized my comments on risks around opening schools have confused and upset people, which was never my intention. I misspoke.

Dude, you said 1.5 - 2.2 million US children were collateral damage. "Misspoke" is the new definition of the so-called doctor violating his Hippocratic oath. At minimum, this fraudulent reality TV political hack should have his medical license revoked. https://www.forbes.com/sites/...

Idol agdag ni Trinity,

Trinity @TrinityResists

There's ~73.7 million younger than 18 in the US - 22.6% of the total population. Dr. Oz just said 1.5 to 2.2 children in this country should die to reopen schools. CDC's BEST case scenario is 240,000 deaths. 1,500,000 to 2,200,000 children. Dead Hippocratic oath, "doctor" Oz?

I figured his first name was doctor. If he has a medical license it is from Trump U.

I can understand why the didn't write her a major part .n the show But it's so wrong they didn't write her skyping into the group from Fashion Week in NY or Paris or something like that which they could easily change if she had a problem.

Yeah, I'm VERY D.sappointed by her former cast for doing her this way! It .s unfair & it is NOT right! So, I personally am not planning to support this reboot! [illegible]

回复 DrOz

I can understand why the didn't write her a major part .n the show But it's so wrong they didn't write her skyping into the group from Fashion Week in NY or Paris or something like that which they could easily change if she had a problem.

Yeah, I'm VERY disappointed by her former cast for doing her this way! It is unfair & it is NOT right! So, I personally am not planning to support this reboot! [illegible]

I can understand why the didn't write her a major part in the show. But it's so wrong they didn't write her skyping into the group from Fashion Week in NY or Paris or something like that which they could easily change if she had a problem.

Because @TheLarkVoorhies was brave enough to have this interview, I was able to ID similar MH symptoms That have affected my quality of life. Because of Lark's bravery, I have sought a psychiatrist & LCSW for the help I need, with the support of my Mom. Thank you

I can understand why she didn't write her a major part in the show. But it's so wrong they didn't write her skyping into the group from Fashion Week in NY or Paris or something like that which they could easily change if she had a problem.

BREAKING: FDA authorizes emergency use of remdesivir to treat the most severely ill coronavirus patients.

1:07 PM · 1 May 2020

173 Retweets **277** Likes

24 173 277

NBC News @NBCNews · May 1

Hospitalized coronavirus patients who received remdesivir in the recent study were able to be discharged within 11 days, on average, compared to 15 days among patients who received a placebo.

It is not considered a cure.

Nah. I just go out. Today we went to a place that sells landscaping stone. They were closed, but we looked thru the fence at what we might want. Then we went to Home Depot and picked up a plant. Were gonna eat at IHOP but they haven t opened the dining room.

   People do NOT know what meditation IS, OR what it is actually about, sorry to say. Consider the following & a lifetime committed to meditation as I've seen no other to be, no matter WHO they were "chalked up to be." #truth http://bit.ly/2SCuAx #RK #Peace ©RKeene.com/HeartMind

   > MayarOwl: — I agree, but let's start with my "basic" definition of meditation for "beginners" (as I understood it at age eleven in 1964 when I started serious meditation): – "The process of learning how to control the mind/soul (i.e., to rein it in) and its emotion/thought (taking its territory), to focus it, to concentrate and then finally learning also how to make it just shut up entirely and listen intently within (for that which this world knows nothing of), all in the essential context of learning to control the breath by learning its electro-chemical language (without any otherwise overt muscular control), after completely relaxing with a comfortable posture (back straight, head aligned), though remaining perfectly alert, always remembering to intentionally discriminate between imagination & true perception (keeping imagination silent and perceptions shelved for later), continuing ever deeper & higher within, past emotion and thought, toward being and knowing, beyond existence entirely in pursuit of truth & nothing less." —©RK

   MayarOwl: AnyOne — "Innate Body," hmm… - No, we live *IN* our physical body, we *HAVE* a mind/soul but we *ARE* our spirit self (if so be it has been germinated). - There is NO separate, supposed "innate body," but there IS an interactive "field" occupied by ones consciousness and prana "between" either of the lower two, for those who are seriously-enough developed to take advantage of such. - Mind/Soul Definition: "Emotion and thought, from which springs imagination, the seat of ones will and the 'lodge' of ones ego, which MUST be considered (upon pain of REGRET otherwise) only in the role of ones appendix which is sidelined from otherwise bodily functions." - Ego, when NOT kept under ones thumb, WILL take over otherwise (yes, it's *VERY* sly in that regard), and much to your characterless glee, or to your own utter horror of chagrin, hm? *selah*

David Brooks is correct: this is a "formative moment for a new generation." I believe strongly in the concept of national service, and my charity, [illegible] remains dedicated to giving teens tools to improve their physical and mental health

5 6 33

Dr. Mehmet Oz
@DrOz

Follow

"Encourage in each new generation the habits of work, the taste for adventure, a sense of duty and a call to be of use."

I've worked towards this goal for years, just like @ChrisCoons has. His bill to expand national service programs is the right answer.

Thankfully, her National Interest Waiver petition was just reopened and approved! Kudos to all who pushed the immigration system to work better, including @EIHonors. Deporting @thenewDrJ would be a great disservice to all.

I can understand why the didn't write her a major part in the show. But it's so wrong they didn't write her skyping into the group from Fashion Week in NY or Paris or something like that which they could easily change if she had a problem.

Dr. Daniel Wallace — the rheumatologist who treated Selena Gomez — has written to the FDA with his experiences prescribing hydroxychloroquine.

Dr. Wallace joins me Tuesday to discuss why lupus patients may hold the key to whether the medication could keep people safe. #COVID19

> **Hydroxychloroquine (HCQ, Plaquenil) is a very safe drug. It has been given to tens of millions individuals in the world since its approval in 1955 (65 years) and as monotherapy has not been associated with any deaths in the recommended dose. In 42 years of practice, no patient of mine has ever been hospitalized for a HCQ complication.**

I am 56 years old and have taken a daily dose of 400mg of hydroxychoroquine successfully for Rheumatoid Arthritis since 1999 with no side effects. Long term treatment requires an eye exam to check for retinal toxicity. I have social distanced and so far am still okay.

Naps can be a way to recharge. Just make sure you're doing it in a way that protects your nighttime slumber:

- Keep your naps 20 to 30 minutes long.
- Close your eyes between 2 and 3 p.m.
- Keep the room dark.

My concern is for pts with Lupus and RA who depend on this medication. They may have trouble getting it. Or, like epi pens and insulin, the cost of hydroxychloroquine will skyrocket.

It's a long expired patent. It's available by many generic manufacturers. The cost won't sky rocket.

Als antwoord op @CourtPusateri @DrOz

I've heard this. Many use it for things like RA and lupus and other illnesses. They take it daily and need to remain on it. Because of hoarding it is getting hard to find. I'm so sorry your father is having trouble getting it, I hope some can be found soon for him

I've heard this. Many use it for things Like RA and Lupus and other illnesses. They take it daily and need to remain on it. Because of hoarding it is getting hard to find. I'm so sorry your father is having trouble getting it, I hope some can be found soon for him

We could all use a feel-good story – and this one plays out like a movie!

A Virginia nurse working in NYC during the #covid19 pandemic located the firefighter who saved her life 37 years ago.

I'm asked often how my mom is doing. June is Alzheimer's & Brain Awareness Month, so I wanted to share an update. Although my mom recognizes me and can express her love, she's treading water. She's not getting better…but she's not getting worse, either.

To all the caregivers out there: thank you for the support you've shown me and my family since we began this journey. There are 16 million caregivers taking care of about 6 million Americans with Alzheimer's. You're never alone on this journey, nor should you ever be. #EndAlz

Juneteenth honors the end to slavery and is the longest-running African American holiday. Unfortunately the legacy of slavery still manifests today as health disparities.

That's why achieving health equity must be part of achieving social justice.

Happy #JUNETEENTH2020

The holiday commemorates the effective end of slavery in the United States. Take some time to learn about the longest-running African American holiday if you're not familiar with it. Change begins with education.

I am announcing with @GovMurphy and @GovNedLamont a joint travel advisory. All individuals traveling from states with significant community spread of COVID into NY, NJ, or CT must quarantine for 14 days.

This travel advisory is effective midnight tonight.

56th Governor of the great State of New Jersey. Proud husband of and father of 4 humans and 2 dogs. Proud to lead alongside

Governor Phil Murphy @GovMurphy

Follow

UPDATE: INDOOR DINING WILL NO LONGER RESUME ON THURSDAY.

We had planned to loosen restrictions this week. However, after #COVID19 spikes in other states driven by, in part, the return of indoor dining, we have decided to postpone indoor dining indefinitely.

11:35 AM · 29 Jun 2020

1,827 Retweets **6,593** Likes

Governor Phil Murphy @GovMurphy · 31m

We have been cautious throughout every step of our restart

We've always said that we would not hesitate to hit pause if needed to safeguard public health.

This is one of those times.

14 72 686

Governor Phil Murphy @GovMurphy · 31m

We're also moved to pause indoor dining because of what we've seen in some establishments across the state.

Overcrowding. A complete disregard for social distancing. Very few, IF ANY, face coverings.

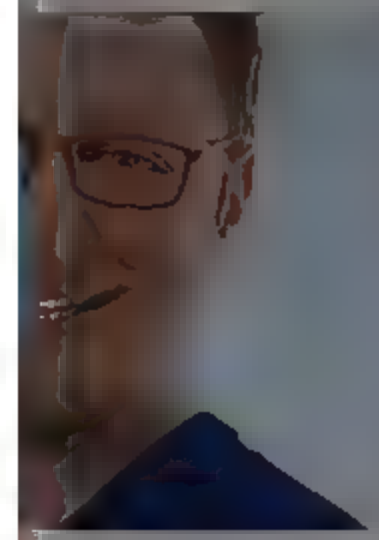

The scenes we see in our newspapers and on social media CANNOT CONTINUE.

As a surgeon, I often wear a face mask for hours on end. Face masks do not cause CO2 poisoning. They also do not allow viruses to travel to your brain. Here's what you should know about #covid19 and face masks.

Unfortunately even if he had been found guilty convicted and jailed when Corey reported it, he would have been released in a few short years to have more victims The system is not very good at punishing those who victimize and traumatize others

What are the long term effects of breathing in carbon dioxide?? Everyone s wearing masks for 12 16 hours a day and breathing carbon dioxide the whole time because masks do not let it all out when you are breathing!!

There has been back and forth on whether or not #COVID19 is airborne – here are the facts. trib.al/2NoEcWI

9:41 AM · 14 Jul 2020

4 Retweets **12** Likes

3 4 12

B4Liberty "Can't we all get along?" @ SAB4 · 54m

Replying to D O

This is playing games with semantics. If a "droplet" goes 12 feet through the air after a cough, sneeze or shout, it was airborne, by any reasonable definition of the term.

A new study found that having a BMI over 30 was associated with a higher risk of respiratory failure, admission to intensive care and death in #covid19 patients - regardless of age, gender and other associated diseases.

You can calculate your BMI here:

Naps can be a way to recharge. Just make sure you're doing it in a way that protects your nighttime slumber:

- Keep your naps 20 to 30 minutes long.
- Close your eyes between 2 and 3 p.m.
- Keep the room dark.

Replying to

NO.

Disposable gloves are meant for a one use/one contact scenario not a wear them throughout and cross contaminated everything scenario! No gloves; wash hands with soap and water for a minimum of 20 secs instead unless you cannot in which case use hand sanitizer for 20 secs

Big vaccine news out of Oxford: in a trial of over 1,000 patients, those who received the vaccine developed antibodies and virus-killing T-cells. This doesn't prove the vaccine is going to work, but it's promising news as the trial progresses into its next phase.

Naps can be a way to recharge. Just make sure you're doing it in a way that protects your nighttime slumber:

- Keep your naps 20 to 30 minutes long.
- Close your eyes between 2 and 3 p.m.
- Keep the room dark.

Clinical trials for Oxford's #COVID19 vaccine have been put on hold, drug maker AstraZeneca said Tuesday.

"Our standard review process was triggered and we voluntarily paused vaccination to allow review of safety data by an independent committee."

Last weekend I received news that shocked me – my mother was diagnosed with #COVID19. What's worse: she's already living with Alzheimer's in Turkey.

On Friday's show I'll talk to leading experts who are worried about chronic COVID and how it could affect memory loss.

Getting a flu shot is more critical than ever. I've always said it and I'll keep repeating it. Experts have repeatedly debunked the claim that the flu shot increases your chance of catching #covid19. Don't listen to misrepresented info. #ScienceFirst

You need a flu shot more than ever this year. And now is the time to do it. Don't wait until the start of flu season.

When doctors from around the world were surveyed, hydroxychloroquine was chosen as the most effective therapy.

I spoke with Dr. Didier Raoult this morning. We'll Skype next week to review the results from his first 1K patients on hydroxychloroquine.

President Trump will remain in Walter Reed Medical Center for a “few days” as a precaution.

In addition, the president’s physician said he had been administered a Regeneron antibody cocktail. Here’s what you need to know about the treatment – and what this development means.

White House physician says President Trump "is not requiring any supplemental oxygen" but has started Remdesivir therapy nbcnews.to/33r91Kq

PHYSICIAN TO THE PRESIDENT
THE WHITE HOUSE

October 02, 2020

MEMORANDUM FOR: KAYLEIGH MCENANY
ASSISTANT TO THE PRESIDENT AND
WHITE HOUSE PRESS SECRETARY

FROM: SEAN P. CONLEY, D.O., FACEP
PHYSICIAN TO THE PRESIDENT
COMMANDER, U.S. NAVY

SUBJECT: Friday Evening Health Update on President Donald J. Trump

I release the following information with the permission of President Donald J. Trump.

This afternoon, in consultation with specialists from Walter Reed and Johns Hopkins University, I recommended movement of the President up to Walter Reed National Military Medical Center for further monitoring. This evening I am happy to report that the President is doing very well. He is not requiring any supplemental oxygen, but in consultation with specialists we have elected to initiate Remdesivir therapy. He has completed his first dose and is resting comfortably.

This bias isn't unique to POCs. The medical field (really many professions) treat people with a sense of irreverence bc what they do is rote and 'just ' and to the people experiencing it can be terrifying and emotional.

Excellent advice from @judbrewer on #WorldMentalHealthDay

Jud Brewer MD PhD @judbrewer
Today is World Mental Health Day.

Treat your mind to
1) a mental massage (meditation anyone?)

Folgen

Officials are warning about an expected resurgence of AFM, the polio-like condition that causes weakness & paralysis in the arms or legs of children.

Since 2014, the disease has peaked every two years between August & November in the US. Here are the symptoms to watch for.

Make dinner the smallest meal of the day. Stop eating when the sun sets. When you eat is as important as what you eat. More tips: trib.al/o7qQ0g

WHAT

- Unlimited non-starchy vegetables
- 7 oz of lean or plant based protein per day
- 4 servings of whole grain carbs
- 3 servings of whole fruit
- Healthy fats
- 1 oz of dry roasted nuts or seeds
- 1/2 oz dark chocolate

WHAT NOT TO EAT.

- Sugar
- White flour
- Processed foods
- Fried foods
- Limit red meat, cheese, and egg yolks

WHEN TO EAT.

You don't need to count calories! Just make sure you're eating most of your food for breakfast and lunch

Willkommen!

Auf deiner Timeline findest du in Echtzeit die Informationen, die dir wichtig sind.

Bestimmte Tweets interessieren dich nicht?

Um einem Account zu entfolgen, Cursor zum Profilbild bewegen und Folgen-Button klicken.

Sage viel mit einem Klick

Wenn du einen Tweet siehst, den du magst, dann klicke das Herz und zeige damit dem Verfasser, dass dir der Tweet gefällt.

Sag es weiter

Der schnellste Weg, den Tweet eines anderen mit deinen Followern zu teilen, ist ein Retweet. Tippe auf das Symbol, um ihn sofort zu retweeten.

Beteilige dich an der Unterhaltung!

Teile deine Gedanken zu einem Tweet ganz einfach in einer Antwort mit. Finde ein Thema, das dich interessiert, und leg direkt los.

Erfahre das Neueste

Erhalte einen aktuellen Überblick, worüber sich andere zur Zeit unterhalten.

Erhalte noch mehr interessante Infos

Folge mehr Accounts, um sofort Updates zu Themen zu bekommen, die dir wichtig sind.

Finde heraus, was gerade passiert

Sieh sofort die neuesten Unterhaltungen zu jedem Thema.

Verpasse niemals einen Moment

Lass dir keine der besten Geschichten entgehen, während sie passieren.

COVID-19 has disrupted normal routines and thwarted travel plans. Now, the pandemic is complicating yet another annual tradition: #Halloween trick-or-treating.

Is trick-or-treating off-limits this year? There's no one-size-fits all answer: bit.ly/3oeuMFC

06:14 · 21. Okt. 2020

1

Sharecare @SharecareInc · 43 Sek.

Before making a decision, it's important to be aware of #covid19 case rates in the area where you live.

"If the infection rate is below 5 percent, it is considered 'low risk,' while 5 to 10 percent is concerning," advises Dr. Shelly Vazin Flais of @NJFeinbergMed.

"A small act of kindness can make a big difference."

Meet 17-year-old Colby, the founder of Desks For Distance. He's putting his carpentry skills to good use, making desks for underprivileged students.

Willkommen!

Auf deiner Timeline findest du in Echtzeit die Informationen, die dir wichtig sind.

Bestimmte Tweets interessieren dich nicht?

Um einem Account zu entfolgen, Cursor zum Profilbild bewegen und Folgen-Button klicken.

Sage viel mit einem Klick

Wenn du einen Tweet siehst, den du magst, dann klicke das Herz und zeige damit dem Verfasser, dass dir der Tweet gefällt.

Sag es weiter

Der schnellste Weg, den Tweet eines anderen mit deinen Followern zu teilen, ist ein Retweet. Tippe auf das Symbol, um ihn sofort zu retweeten.

Beteilige dich an der Unterhaltung!

Teile deine Gedanken zu einem Tweet ganz einfach in einer Antwort mit. Finde ein Thema, das dich interessiert, und leg direkt los.

Erfahre das Neueste

Erhalte einen aktuellen Überblick, worüber sich andere zur Zeit unterhalten.

Erhalte noch mehr interessante Infos

Folge mehr Accounts, um sofort Updates zu Themen zu bekommen, die dir wichtig sind.

Finde heraus, was gerade passiert

Sieh sofort die neuesten Unterhaltungen zu jedem Thema.

Verpasse niemals einen Moment

Lass dir keine der besten Geschichten entgehen, während sie passieren.

Antwort an @DrOz

Yes lockdowns only cause more stress which causes immunity to break down & get sick. Plus stress causes people to over eat & gyms being closed gaining weight another risk for COVID

This picture was taken 35 years ago today – June 29th, 1985. On this day I made the best decision of my life — marrying @lisa_aneoz. Four kids and four grandbabies later, there's no one else I'd rather go through life with. Thank you for making me a better person.

Pfizer plans to ask the FDA for emergency authorization of the vaccine later this month, after it has collected the recommended two months of safety data.

By the end of the year it will have manufactured enough doses to immunize 15-20 million people.

A very happy 30th birthday to my daughter @arabellasoz, who is now working as a therapist and guiding people through our turbulent times. Her kindness and profound insights have brought joy into our lives – and her witty repartee still keeps her competitive siblings at bay.

The first alternative is to end quarantine after 10 days if no symptoms are reported.

The second option is to end quarantine after seven days if an individual tests negative and also reports no symptoms.

Sorry, U zei? @Sorry_U_Zei · 21 Min.

Antwort an @Dr_Oz

Pls. Also show what happens when ppl take plenty of anti oxidants like vitamin C and E and healthy fishoils/ olive oil/ coconut oil etc etc
Then they can turn the havoc oxidation a.o. have done around.

TOMORROW: health experts answering YOUR submitted questions about the COVID-19 vaccine feat:

Dr. Marjorie Bessel of @BannerHealth, @drjohnwhyte of @WebMD, Dr. @DrMirhom of @ColumbiaMed, Dr. Josh Sharfstein of @JohnsHopkinsSPH & @AmericanHealth, & @DrOz.

healthcorps.org/shotathope

Friday, December 18th at 3 pm EST

A panel of public health experts and influencers to discuss the impact of the COVID-19 vaccine — not only on our physical health, but mental health as well. The panel will discuss the FDA's approval process and the distribution success, how states plan on providing the vaccine, such as who gets it after essential workers, the vaccines efficacy, and the challenges public health officials face to ensure the vaccine is equitably distributed.

Dr. John Whyte
Chief Medical Officer of WebMD

Dr. Marjorie Bessel
Chief Clinical Officer of Banner Health

This is what happens when you spend a significant amount of time indoors with poor ventilation...

Here are 3 things you can do to minimize your risk this holiday season:

1. Create cross-ventilation by opening doors and windows
2. Avoid large in-door gatherings
3. Wear a mask 😷

Lower Your Chances of Getting COVID-19

Is more federal oversight needed for vaccine distribution? U.S. @Surgeon General Dr. Jerome Adams says, “Vaccine distribution is always federal, state, and local partnerships working together.”

Hear more about the vaccine rollout today on the show. Check your local listings.

What Role Should the Government Play in Vaccine Distribution?
